

CIMS-2

- **CIMS-2** will help the State, (ISDs), and locals keep track of tasks and activities required by IDEA 2004.
- **CIMS-2** will help locals put special education monitoring activities into context (why do we do this), define a schedule (calendar of activities), and establish a system of improvement (processes and tasks).
- **CIMS-2** will help locals see the data the State sees when making monitoring decisions, and will store that information in a single location so that status updates, notes, and other information are available in one place and everyone sees the same data!

Vocabulary

- **State Performance Plan (SPP)** — A plan developed by the MDE that evaluates the State's efforts to implement the requirements and purposes of the IDEA 2004
- **Annual Performance Report (APR)** — A summary of the State's progress on its SPP indicators
- **Continuous Improvement and Monitoring System (CIMS-2)** — The revised system used by OSE-EIS/EC&FS to help locals monitor and analyze data and correct and improve areas of poor performance
