

MI School Data Training Series

Through a grant-funded opportunity, the Calhoun ISD is excited to offer a variety of training sessions around the powerful tool, MI School Data. If you're an experienced user or just looking to get started, there's a session for you! All events are **free** to participants in Barry, Branch, and Calhoun counties. Please click the date, location, and time link to register.

How College And Career Ready Are Our Students?

[2/5/2014. Gifford Schultz. 8:30 – 10:30](#)

Interested in higher education enrollments? Course success rates at the Postsecondary level? Find out about career and college readiness and trends in Postsecondary enrollment and performance. Locate a variety of college types, including Community College through 4-year colleges/universities. Explore student enrollment within 0-48 months of graduation, the percent of graduates enrolled in college, and disaggregate down to the subgroups.

How Do I Create Accounts In MI School Data?

[5/13/2014. Gifford Schultz. 11:30 – 1:30](#)

Are you responsible for creating and monitoring users in the MI School Data portal? Learn the roles and responsibilities for creating users and assigning rights. Explore the importance of FERPA/HIPAA compliance, and systems for maintaining user rights and responsibilities. Please note: This training is part of the DataDirector Key Contacts Meeting. All are welcome, but should register as well.

How Can MI School Data Help With School Improvement?

[2/24/2014. CACC. 12:00 – 2:00](#)

[5/15/2014. Gifford Schultz. 10:30 – 12:30](#)

Take a guided tour through the MI School Data portal with a focus on school improvement and state reporting. Locate demographic or achievement data for the School Data Analysis Diagnostic. Find enrollment, achievement, staffing, and finance data in the portal required for state reporting. Use data inquiry and access to mine data for goals, strategies, and activities within the school improvement plan. Please note: These trainings are part of the Facilitated School Improvement and DataDirector Key Contacts . All are welcome, but should register as well.

How Are Our Students Performing On State Assessments?

[1/16/2014. CACC. 11:30 – 1:30](#)

[4/28/2014. CACC. 12:00 – 2:00](#)

This session is designed to dig deeper into the data available in the portal, including technical updates and enhancements. Explore the dynamic inquiry tools in D4SS and Special Education, review report cards, Z-Scores, Annual Education Report, or data wall/portraits. These trainings are part of the Facilitated School Improvement and DataDirector Key Contacts . All are welcome, but should register as well.

MI School Data Summit

[3/31/2014. Gifford Schultz. 8:00 – 4:00](#)

This day-long summit is designed to bring district and building teams together around MI School Data. The morning will feature an introduction to the tool that will benefit users of all levels. A free working lunch will allow teams to work together to explore the tool within their school's context. During the afternoon, teams can visit a number of breakout sessions to dig deeper into this powerful tool. Session topics include Special Education, College and Career Readiness, MEAP/MME Assessment, Accountability Scorecards, Online Assessments, User Maintenance, and when to use DataDirector or MI School Data.
